Engr. Adedipe Oluwatimilehin

Engineer, freelancer

adedipeoluwatimilehin@gmail.com 08162097410 Lagos, Nigeria Nigerian

Summary

Recent Electrical and Electronic Engineering graduate with a strong foundation in electrical systems, electronics, power generation, control systems, and telecommunications. Skilled in technical problem-solving, circuit design, system analysis, and the use of engineering tools and software. Demonstrates excellent analytical, teamwork, and communication abilities developed through academic projects and practical training. Seeking an entry-level engineering position where I can apply my technical knowledge, contribute to innovative projects, and continue developing my professional expertise while supporting organizational growth and technological advancement.

Education

Electrical and Electronic Engineering, *Ekiti State University* 06/2021 – 02/2026
Lagos, Nigeria

Bachelor of Engineering (B.Eng.) in Electrical and Electronic Engineering, Ekiti State University, Ado Ekiti, 2026

Relevant Coursework: Power Systems, Renewable Energy Systems, Electrical Machines, Control Engineering, Power Electronics, Digital Electronics, and Instrumentation.

Professional Experience

Electrical Engineering Intern, *Corustar Technological Services* 06/2024 – 07/2025
Lagos, Nigeria

- Assisted in the design, installation, and performance monitoring of solar photovoltaic (PV) systems.
- Conducted site assessments and energy calculations for renewable energy projects.
- Supported the maintenance and optimization of solar energy installations.

Skills

- Electrical Power Systems & Renewable Energy Systems
- Circuit Design and Analysis
- Technical Documentation and Reporting
- Problem Solving and Analytical Thinking
- Time Management and Attention to Detail
- Electrical Installation, Maintenance & Troubleshooting
- AutoCAD, MATLAB/Simulink, ETAP
- Microsoft Office Suite
- Teamwork and Effective Communication
